## **DETAILED ACTION**

### ***Reasons for Allowance***

1. Claims 1, 3, 5-16, 19-23 and 26 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Regarding claims 1, 7, 14 and 20, Examiner's newly discovered reference Eisdorfer, after having all the limitations of the claim, fails to teach a telephone subscriber associating distinctive call waiting tones with calling parties by selecting each of the distinctive call waiting tones assigned to each of the calling parties using Web-enabled interface over an Internet connection. Registering distinctive call ringing tones for caller using Web-enabled interface over an Internet connection may be well known in the art; however, it is not obvious, nor missing the teaching of modifying LEC and SCP of Eisdorfer to receive user name or password for corresponding distinctive call waiting tone by using Web-enabled interface over the Internet connection. Further, the addition of a Web-enabled interface into the system of Eisdorfer would require substantial structural change of the LEC and SCP.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
